

SYNTHETIC NOTE - NOT A REAL PATIENT

EMERGENCY DEPARTMENT NOTE - Powell River General Hospital

Patient: Daniel Okafor PHN: 9487 312 652 MRN: 4417-208

DOB: 11/22/1968 Sex: M

Address: 4820 Marine Ave, Powell River BC V8A 2L1 Phone: (604) 555-0187

Email: d.okafor68@example.com

Seen: 2026-09-28 at 21:40 Attending: Dr. Priya Sandhu

HPI: 57-year-old man, the only ferry captain on the Texada Island route, presents with 3 hours of crushing substernal chest pain radiating to the left arm, with diaphoresis and nausea. Pain began while docking the 19:00 sailing. Wife Grace drove him in; she can be reached at (604) 555-0193.

PMHx: Type 2 diabetes (dx 2015), hypertension, hyperlipidemia. Ex-smoker, 30 pack-years, quit 2019. Father died of MI at age 61.

Meds: metformin 1000 mg BID, ramipril 10 mg daily, atorvastatin 40 mg daily.

Allergies: penicillin (rash).

Exam: BP 158/94, HR 104, RR 20, SpO2 95% RA, T 36.9. Diaphoretic, anxious. Heart sounds normal, no murmur. Lungs clear. No peripheral edema.

Investigations: ECG shows 2 mm ST elevation in II, III, aVF with reciprocal depression in I and aVL. Troponin I 2.4 ng/mL (ref < 0.04). Glucose 11.2 mmol/L. Creatinine 92 umol/L. K 4.1.

Assessment: Acute inferior STEMI.

Plan:

- ASA 325 mg chewed, ticagrelor 180 mg load, heparin 4000 U IV bolus given.
- Nitroglycerin 0.4 mg SL x2 with partial relief; morphine 2 mg IV.
- Cath lab not available on site. Spoke with Dr. Marcus Lindqvist, interventional cardiology at Vancouver General Hospital, at 22:05. Accepted for urgent PCI.
- BC Emergency Health Services air transfer arranged, ETA 23:15.
- Hold metformin. Recheck troponin and ECG in 3 hours if transfer delayed.
- Grace updated at bedside; son Tobi (lives in Nanaimo) to be called by family.

Signed: Dr. Priya Sandhu, MD, 2026-09-28 22:20
